Segment 1 completed

Remove from hoop and cut away excess stabiliser – Take some care at this stage to neaten up the side edge of the Foot that will be joined – this makes it easier to join, and ensures a professional look.

Load BF-02 to your machine and as before:

- Hoop Water Soluble Stabiliser
- Thread machine with a neutral color

- Stitch Color 1 which is a guideline for placing your pellow, AND FOOT FABRIC
- Place your layer of pellow and Foot fabric over the stitched guidelines
- Stitch Color 2 which attaches the pellow and Foot fabric

Exactly as before, complete embroidery:

- Color 3 Stippling

- Remove from hoop and add backing fabric
- Return to hoop – Stitch Color 5 to attach backing

Stitch Color 4 which zig zags edges, and stops machine where you will join Segment One

Place Segment 1 against current design as pictured.

They should butt together nicely like a jig saw puzzle – if they don't (unlikely), take the time now to cut nice and closely to the stitching, so they do fit together

**SLOW YOUR MACHINE DOWN**

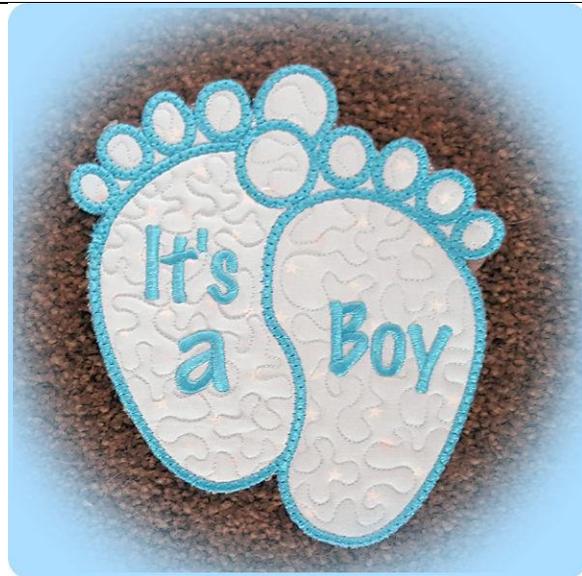

Stitch Color 5 which joins the 2 pieces

If (unlikely) the zig zag hasn't completely attached the two sides, re-do Color 5 again until you are happy

Complete Segment 2

Color 6 - Satin Stitch Outline

Remove from hoop

Cut away excess stabiliser  
Use a Q-Tip and warm water to remove stabiliser around the edges.

You do not need to completely wash the stabiliser out
