CONSTRUCTION

STEP ONE – THE FABRIC PLACEMENT LINE

Thread your machine with a neutral colour

Stitch Colour 1, which is the outline of the coaster and shows you where to place your fabric

STEP TWO – BATTING

Tape your batting in place over the guideline

Stitch Colour 2 to attach

Cut away excess batting

There are gaps between the batting and the original outline – this keeps the batting out of the edges

STEP THREE – ADD FABRIC

On the front of the hoop, place fabric over the guideline

Thread the machine with the colour you want for background quilting (Black)

Stitch Colour 3 to attach the fabric and quilt the background

STEP FOUR – STITCH INNER DESIGN

Colour 4 – He's playing and Guess I'll (blue)

Colour 5 – GTA (red)

Colour 6 – black eyes (black)

Colour 7 – Sew (purple)

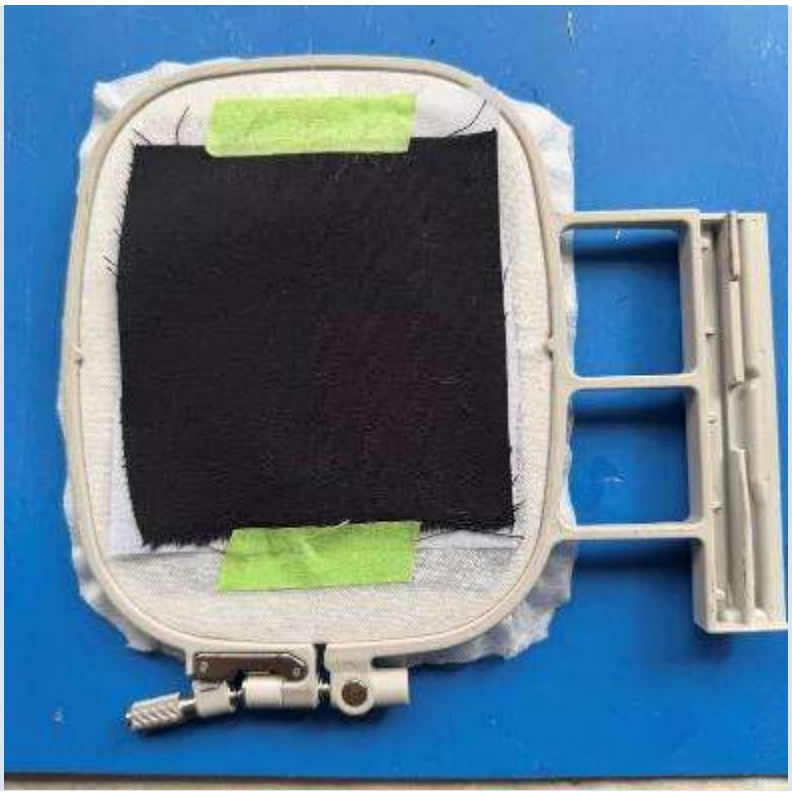

Colour 8 – Tick (red)

STEP FIVE – ADD BACKING FABRIC

BACK OF HOOP:

As shown, place the backing fabric over the guideline area, with the wrong side of the fabric facing the hoop

Use small pieces of tape to hold the fabric in place, making sure the tape sits outside the stitch area

Stitch Colour 8 to attach backing fabric

Remove hoop from the machine
Cut away all excess fabric on the front and back of the hoop

STEP SIX – COMPLETE EMBROIDERY

Change to matching top and bobbin thread

Stitch Colour 9 to zigzag, then complete satin stitch edge

(black)

STEP SEVEN – FINISH

Remove the design from the hoop and trim away the excess stabiliser from the edges

To remove the remaining water-soluble stabiliser along the edges, dip a Q-tip (cotton bud) in hot water and use it to clean the edges

For a completely clean finish, you can either soak the entire design or wash it in the machine. Once dry and pressed, it will look like new!
